

Hawk Converting announces expansion with purchase of 55,000 square foot adjacent building

Lewisburg, TN March 5, 2015

Hawk Converting, LLC, announced today the purchase of an adjacent building of 55,000 square feet to replace their current warehouse annex. The newly formed Lewisburg campus is over 26 acres and has 120,000 square feet of combined production and warehouse space. Renovation of the new space will be completed in 30 days.

In making the announcement Kathryn Hawkins, Managing Partner said, “We have been using a local warehouse to store finished skids and roll inventory. With next door access to materials Hawk Converting can speed up the service levels that customers have grown to expect from us. We believe in high performance and our staff is very excited about the efficiencies our new space will bring to our handling processes.”

“Our company will continue to invest. Our plans for the purchase of our second building came together quickly”, stated Re Kelso, Managing Partner, of Hawk Converting. Ms. Keslo also added that the company has a keen focus on service and Hawk Converting needed the proper space to keep their commitments to maintaining inventory ready to convert for customers.

With new additions of Kallima® Coated Covers and Georgia Pacific Mastepint® C1S SBS paperboard in 2014, Hawk Converting continues to grow their material offering for customers. “The new additional paper lines and facility expansion are just the tip of the iceberg as we target increased flexibility on sheet to size product programs” added Robert Heithaus, CCO. “Ownership is focused on our customers. The news on the expansion demonstrates their commitment to long term growth.”

About Hawk Converting:

Hawk Converting, LLC specializes in the manufacture and distribution of a wide variety of custom paper products from mill direct rolls, customer specific programs and private label services, to the finished printed product. We are 100% minority owned, WBENC and WBE certified.
