

Finally, a sustainable replacement for plastic outdoor signs!

WHAT IS MAKO-Board™?

100% Recyclable

100%
Recyclable
Paper Board

Suitable for signage
exposed to outdoor
and semi-outdoor
environments

Sustainable
replacement to
plastics and/or
synthetics

BENEFITS vs. PLASTIC

- Fully recyclable, unlike PVC, Styrene, Polypropylene and other plastic composites
- Smooth, no fluting
- Bright white surface
- Superb printability offset and digital
- Will not crack or shatter like PVC
- Up to 50% greater stiffness than foam PVC
- Remains flat throughout the lifespan of the product
- Scoring and die cuts do not affect the integrity or lasting durability of the board

ALTERNATIVE TO

- PVC
- Foam PVC
- Styrene
- Sintra
- Coroplast

APPLICATIONS

- Outdoor Signs
- Semi-Outdoor
- Inside Cold Cases
- Food Grade
- Displays
